

HISTORIC SELMA, ALABAMA

Riverfront Park

The City of Selma has completed the Master Plan for Riverfront Park that will cover approximately 7 acres along the historic bluff of the Alabama River. It creates a multi-use recreational, educational and cultural park that will serve as a catalyst for future economic development.

The Master Plan fits the needs of both the citizenry and downtown businesses and has the clarity to serve as a guide, ensuring Riverfront Park develops into a cherished asset for generations. Anchored by an amphitheater and traversed by walking and biking trails, Riverfront Park will be a place where our history and natural beauty overlap.

It will be a place we can show what happens when we stand as one, determined. Now is the time to develop our riverfront. Let's make a difference in our community.

For more information on giving or about Riverfront Park please contact:
